Project Recap

Social Buzz is a fast growing technology company that needs to oversee the scaling process effectively to adapt quickly to their rapid growth. Accenture has begun a 3 month pilot to focus on;

1. Recommendations for successful IPO
2. Audit of Social Buzz's big data practice
3. Analysis to find Social Buzz's top 5 most popular categories of content

Problem

Over 100,000 posts everyday! And that includes text, images, videos and GIFs.

How to capitalize when there is so much?

Analysis to find top 5 most popular categories of content

Top 5 categories

Summary

The top 5 most popular categories of posts were Food, Technology, Healthy Eating, Science and Animals in descending order.

“Animals” has garnered most number of reactions while “Veganism” saw least number of reactions, among the categories.

In 2020, August saw most number of posts and in 2021, May has seen most posts, thus far.

Next Steps:

While this ad hoc analysis is insightful, it is important and timely to take this further for real time understanding of the business. We can work with you and show you how this can be achieved.

Thank you!
